7 reasons CosmoPod® unit dose capsules should be in your portfolio

1. Unit Dose product launches have increased in the last year*
2. CosmoPod® is the leading unit dose capsule technology
3. Heat-sealed technology shields formulations from UV light, oxygen, and bacteria, maintaining potency and efficacy
4. Consumers are seeking waterless formulations and more sustainable options – both perfect for unit dose applications
5. The plant-based shell offers a sustainable solution that is vegan friendly & biodegradable
6. Efficient and precise dosing with each capsule use
7. Perfect for oils, serums and challenging ingredients such as Retinol, Vitamin C and SPF formulations

7 trending formulations... *because every drop matters.*

PRODUCT NAME	BEAUTY BENEFIT*
SPF 30 & SPF 50 MINERAL-BASED BROAD SPECTRUM	A unique, portable alternative to traditional emulsions that protects against UV damage and photo-aging. Silicone free.
BIOTIC SERUM SF	Powered by Lactobacillus ferment, this waterless formula reduces skin sensitivity, preserves hydration, and supports microbiome health. Silicone free.
AZELAIC ACID 10%	Tested on acne- and rosacea-prone skin, this formula calms and soothes redness while reinforcing skin balance and comfort.
HA SERUM SF (HYALURONIC ACID SERUM)	A multi-weight Hyaluronic Acid combination serum that locks in moisture, hydrates, and soothes the skin. Ideal for dehydrated or sensitive skin. Silicone free.
CERAMIDES SF	Strengthens the skin barrier, retains hydration, and reduces visible signs of aging, reinforcing the skin's resilience. Silicone free.
DOUBLE POWER RETINOL-LIKE	Features two powerful, skin-friendly retinol alternatives to improve skin radiance, elasticity, and firmness while minimizing irritation. Silicone free.
BRIGHTENING SERUM SF	A soothing formula that helps lighten dark spots, evens skin tone, enhances radiance, and restores a natural and healthy glow—powered by Sclareolide from fermented sage and Bisabolol. Silicone free.
